**REPORT - DISTINGUISHED LECTURE ON MICROCONTROLLER
BASED DESIGN
9.4.2018**

A distinguished lecture on “Microcontroller based design” has been organized by Department of ECE under the banner of TARG – Wireless sensor Network and IoT, Image processing group activity, held on 9.4.2108 at AVIT auditorium. **Mr. Hareesh Janakiraman, Microcontroller Application Engineer, Texas Instruments, Houston, USA** was the chief guest. Prof. D. Vijendra Babu, Vice Principal (Academics) & Head, ECE dept. gave the welcome address. Mr. Sureshkumar, Associate Prof./ECE introduced the chief guest and he has highlighted his achievements as a Microcontroller Application Engineer. Mr. Hareesh gave an elaborate interaction oriented lecture on Microcontrollers, its design specifications, Selection of microcontrollers for specific applications etc., He gave gifts to the active student participants from ECE, Biomedical, Mechatronics, EEE and CSE. Ms. PoojaLall , III year ECE student proposed the vote of thanks. Dr. L.K Hema, Associate Professor/ECE dept. has coordinated the event.
