Report on Industrial Visit to Infosys Limited, Chennai (MC Campus)

Date: 06-August-2018

Department of Computer Science and Engineering organized the industrial visit to Infosys Limited, Mahindra City Campus, Chennai for the final year CSE students for the academic year 2018-2019, on 03-Aug-2018, 2.00pm to 5.00pm as per the time schedule given by Infosys with the guidance of the department head Dr. K. Somasundaram. The total number of students visited the campus was 22 with accompanied by the faculty Mr. S. Muthuselvan, AP Gr. II, CSE, AVIT and Mrs. E. Srividhya, AP Gr. II, CSE, AVIT.

This industry visit organized as per the continuation of the MoU with the Infosys and the Aarupadai Veedu Institute of Technology, Vinayaka Missions Research Foundations.

All the students are assembled in the seminar hall after the completion of the security formalities at the Infosys gate no.1. Mr. Krishna Ramachandran, ETA, Head, Infosys handled the sessions related to the questions raised by our students. Mr. Krishna given the lecture about the latest trends in industry needs, difference between the Quality assurance and the software testing and self motivational talk about to get placed in the IT industry. Ms. Kalpana explained about the history of the Infosys and the services provided by the Infosys.

Students are learned about the industry environment and its production process flow in the IT industries. Mr. Krishna explained very well about the testing and its automation tools advantage for testing the software.

After completed the lecture given by the Mr. Krishna Ramachandran and the Ms. Kalpana, students allowed to go for campus tour. Students are visited the most of the places in the campus.

Students got the great experience and wonderful interaction with the Infosys employees with their environment. It may be great exposure to them to motivate their self for their future.
