

**REPORT – MOU between “SAKROBOTIX LAB, STARTUP CENTRE-IIT BHUBANESWAR
& AARUPADAI VEEDU INSTITUTE OF TECHNOLOGY” on 8th DECEMBER, 2018**

AVIT, Vinayaka Missions Research Foundation, Chennai and SAKrobotix lab, Bhubeneswar has made a Memorandum of Understanding (MOU) on 8th December, 2018 in the presence of Principal AVIT and CEO SAKrobotix lab. The purpose of the MOU is to ensure co-operation between AVIT and Sakrobotix Lab to work on robotics projects for research & development, International/National Competitions and Product development. Robotics club will also encourage students to take part in various robotics training programs and competitions. Futuristic plans for the AVIT robotics club will be initiating a Robotics center of excellence very soon.

Apart from providing training to the students, Sakrobotix Lab will be giving the needed technical support on the industry relevant research activities and students projects. Sakrobotix Lab will be working closely with AVIT to meet the demands of the students and industry. MOU is expected to be an initiative to develop the advanced technological knowledge transfer initiative, which will make the students employable, researchers and future entrepreneurs.
