AVIT – ENVIRONMENTAL STUDENTS CLUB

REPORT ON WORLD WATER DAY 2025

The EVS Club of AVIT hosted an exciting event to commemorate World Water Day 2025, which was organised to encourage innovative ideas to tackle water-related issues. The event was open to students from all departments and academic years, promoting inclusivity and the exchange of diverse ideas. Each member was given a platform to present their ideas, which were evaluated based on creativity, feasibility, environmental impact and potential for implementation. The event provided a collaborative space for students from different disciplines to come together and share unique perspectives on the issue. A total of 22 students participated, forming members who presented their ideas on glacier preservation. All participants received participation certificates in recognition of their valuable contributions. The top three members were selected for their exceptional ideas and were awarded trophies to celebrate their achievements. The Ideathon 2025 on glacier preservation was a great success, fostering awareness about the importance of glaciers in the global water system and encouraging students to engage with environmental conservation solutions. The event highlighted the power of collaboration and innovation as students from various disciplines came together to address a critical issue. The EVS Club of AVIT is committed to contributing such initiatives in the future to environmental sustainability and water conservation efforts.
